A. Phase is a rule on two scores
G1 (n=1704)
S (n=830)
G2M (n=104)
G2M score
S score (mean S genes - mean controls)
B. Phase composition per Leiden cluster
Fraction of cells
C0 (n=1174)
C1 (n=640)
C2 (n=434)
C3 (n=342)
C4 (n=36)
C5 (n=12)
G1
S
G2M
C. Proliferation markers are rare everywhere
MKI67
TOP2A
Fraction of cells with counts > 0
Leiden cluster (0.5)
